### MCPc Signs Lease to Relocate Headquarters to 1801 Superior Ave. in Cleveland

**CLEVELAND** – MCPc, Inc. has signed its ten-year, 98,000-square-foot lease to move its corporate headquarters to 1801 Superior Ave., in downtown Cleveland. The [technology products and solutions provider](#) plans to move from 21555 Drake Rd. in Strongsville, Ohio, during the summer of 2011.

"Now that our relocation plans are official, we are focused on the next steps, and helping to make Cleveland a center of technology in the United States," said Mike Trebilcock, Chairman and CEO of MCPc. "We're looking forward to being in the heart of Cleveland, and expanding our relationships with local business-technology organizations and the community at large."

MCPc will occupy the third floor of the 1801 Superior building. It will also build out a portion of the first-floor parking garage to accommodate its Technology Center, which will include a state-of-the-art Computer Configuration Lab and Warehouse. The 1801 Superior building is the recognized home of The Plain Dealer, which will continue to occupy space on the remaining floors of the building.

In addition to the new Technology Center, MCPc will develop a 4,000-square-foot Customer Experience Center that will allow customers to see, touch, test, research and evaluate new technologies prior to making purchase decisions. Along with onsite meeting facilities and videoconferencing capabilities, including an Executive Briefing Center, this will help MCPc educate, collaborate and bring cutting-edge technologies to its customers all over the country.

For more details on the relocation, see MCPc's [previous press release](#). Or, stay updated about the process and plans on the company's business-technology blog at <http://blog.mcpc.com>.
