MCPc Supports Bellflower Charity Poker Festival

CLEVELAND — MCPc, Inc., a Cleveland-based technology products and solutions provider, is supporting the Annual Bellflower Charity Poker Festival that starts Thursday, February 18th at the Powerhouse in the Flats. The event hopes to raise \$30,000 to support the Bellflower Center for Prevention of Child Abuse.

Charity Poker is a fund raising event run by Nautica Charity Poker, an experienced, licensed charity poker organization. Each weekend, one charity is selected to provide volunteers for the event. The charity receives the event profits in exchange for the work done by the volunteers. MCPc has several associate volunteers who will be dealing cards or collecting money to benefit Bellflower Center.

“MCPc is proud to support such a fine organization as Bellflower. Their efforts to break the cycle of child abuse and bring more awareness to preventable tragedies in our midst are to be commended,” said Mike Trebilcock, Chairman and CEO of MCPc.

Event hours are Thursday and Friday from 4pm – 12m and Saturday and Sunday from 2pm – 12pm.

About Bellflower Center

Bellflower Center for Prevention of Child Abuse has a rich 30 year history of working to prevent child abuse in our community. In addition to providing recovery therapy, services include professional and community education, personal safety skill training for children, a teen moms group, a kinship care program, and consulting services.
